

panda futuraTM

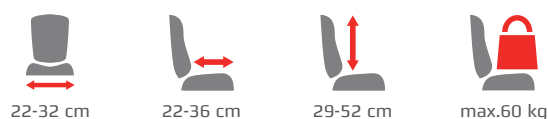

The Panda Futura is a modular seating system for both indoor and outdoor use

The Panda Futura seat is available in two different versions: Standard and Active. The Standard seat is primarily for children with the need of support around arms and shoulders. The Active seat is for the active children who need more freedom of movement.

The Panda Futura Standard is available in 5 sizes accomodating children aged approx. 1 to 12 years. The Panda Futura is available in 4 sizes as an Active version and will accomodate children aged approx. 1 to 12 years.

The Panda Futura seat complies with ISO 16840-4.

Comfortable seating

A modular seating system with comfortable, six part cushion set that can be specified to suit a variety of different sizes and needs

Back recline

The back can be adjusted independently of the seat. The pivotal point of recline is anatomically correct, i.e. in line with the hip joint

Prepared for accessories

The seat is prepared for mounting of e.g. armrests. Several fixlocks and slots in the back and seat ensure easy mounting of other accessories

Fits on a variety of frames

The Panda Futura seat can be mounted on many different frames. Also, the seat on an indoor frame is easy to dismount and place on an outdoor frame. (Read more in the section on frames)

Models

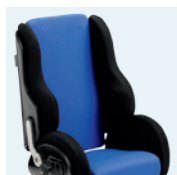

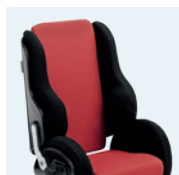

Standard; available in five sizes

Active; available in four sizes

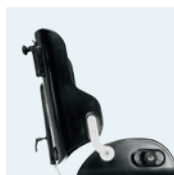

Cover colours

Available in two colours. Red is standard delivery in UK

Shell colour

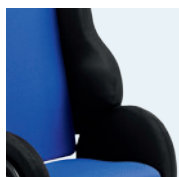

Available in one colour

Black

Cushions

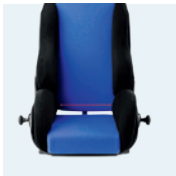

Available with either 3 or 5 cm side and back cushions

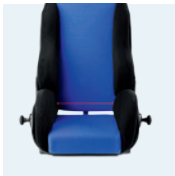

Side cushions are shaped to follow the profile of the seat while matching the body shape of the child.

Adjustable seat & back width

The choice of cushion width makes it possible to adjust the seat and back width

Narrow

Wide

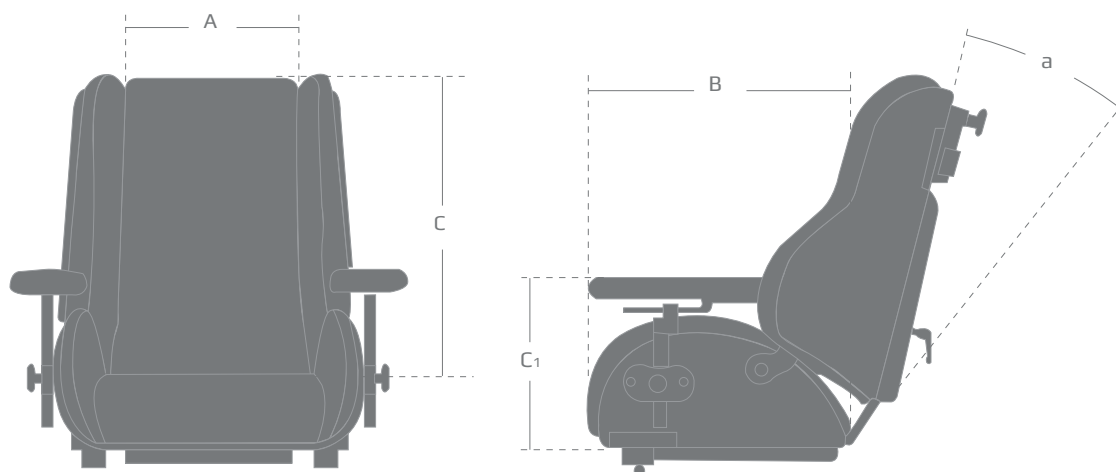

Safety

A safety lock on the seat secures the stability on the frames

Easily operated handle

panda futura 5TM

The Panda Futura size 5 is a comfortable supportive seat for larger children and teenagers. The seat is available in two versions; Standard and Active which provide the required comfort, support and freedom of movement

The back of the seat unit can be adjusted independently of the seat. The pivotal point of recline is anatomically correct, being in line with the hip joint. The back angles from -5° to 30° .

The Panda Futura size 5 can be mounted on the Combi Frame:x, Strong Base, High-low:x indoor and outdoor frames depending on the use of the seat. The seat is supplemented with and prepared for many optional accessories to fulfill the needs of the individual user.

The Panda Futura seat complies with ISO 16840-4.

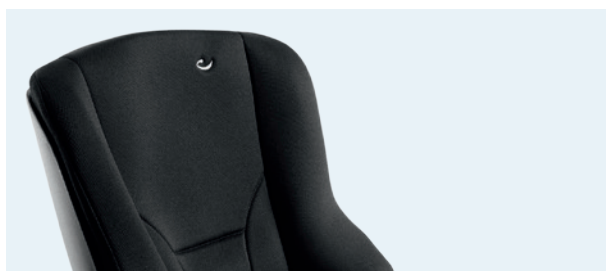

Easy change - active to standard

Mount separate sideplates and cushions and the seat is easily transformed into the standard model. Sideplates and side cushions are accessories

Angle adjustable back

Activate the handle on the back to carry out a smooth and stepless angle adjustment of the back

Comfortable cushions

The cushions are carefully moulded to achieve optimum comfort when seated. The cover is available in black Gemma or black Mesh

Prepared for various accessories

The seat is prepared for mounting of e.g. armrests. Several fixlocks and slots in the back and seat ensure easy mounting of other accessories
