

MOTOR STEP

The leading motorised step, for indoor & outdoor use.

Motorstep for Caravan, Motorhome and home.

Your step to freedom!

www.motorstep.net

Motorstep is designed to assist people with disabilities to easily and safely enter and exit caravan, Motorhome or a step at home.

Motorstep is a self supporting lifting platform and can be placed next to the entrance of a vehicle or hard to reach steps.

Motorstep has easy push button controls to make lifting you to entrance level easy and safe.

Motorstep will lift you from ground level, starting at just 1.5 inches and gently rise to a maximum height of 24 inches, carrying up to 20st/125kg.

How Motorstep works

If you have a disability and find entering and exiting your vehicle or a step within the home too difficult to manage, Motorstep is the perfect solution for you. Motorstep will help you overcome the step with ease and confidence, allowing you to continue with your independence and active lifestyle

Motorstep is easily set up in minutes, is completely free standing and requires no alterations to your vehicle or home. After use Motorstep folds up for storage while you move to another location.

Once set up you simply step on to the platform, which starts at just 1.5 inches/40mm off ground level, hold the two handles and press the green up button, the Motorstep platform will gently rise in tandem with the central moving column you are holding, providing fantastic reassuring support. Once you reach your required height you release the button and the Motorstep will gently stop. You are then free to step across into your vehicles as the Motorstep is completely stable. The Motorstep can be left in the up position ready for your return to ground level.

Motorstep is a 12 volt machine and is supplied with a dedicated cable ready to connect to your caravan or motorhome's leisure battery. A 230v to 12v power supply for Motorstep use in your home can also be supplied for a supplement.

Motorstep is fitted with wheels to help you easily roll it into place, whilst the security eyebolt prevents theft and the removable master key stops unwanted use.

Motorstep is fully weather proof and can be left outside in any weather.

Fitted safety edges around the platform automatically stop decent if an object is detected under the platform, stopping any potential trapping.

Motorstep is fitted with sturdy legs, lifting a user up to 20stone/125kg/280lb in weight, with a slip proof platform the Motorstep will raise you up to a full height of 24inches/600mm in a maximum of 25 seconds

What do our customers say?

100% honest reviews by Motorstep owners.

My Wife suffers from MS and we thought we may have to sell our caravan as my wife can hardly lift her legs but the Motorstep has been great, its starts from such a low level that my wife finds it so easy to get onto and as our caravan floor height is quite high it would be impossible for her to manage without it. Also as it is so portable she has started to use it at the doorway of our 4x4 which is a great bonus. It really is worth its weight in gold to us now!

Dave and Cristine Taylor, Boldock, UK - Feb 2018

We thought our RV Days were over, due to my arthritis, but now we can join the Grey Nomads once more and travel around Australia without worrying about getting in and out. Its such a GREAT Idea. Thanks so much.

Donald and Mary Booth, Western Australia - September 2017

My wife and I are both disabled. we were about to give up our caravan but purchased a MOTORSTEP and it's the best purchase I have ever made, it has made our life a lot easier and we can keep on caravanning. The quality is excellent and worth every penny. I would recommend it to anyone with mobility problems. Thank you.

P Barchelor, Rumburgh, Suffolk UK- April 2017

The Motorstep is exactly what we needed. It is a great piece of kit and does the job perfectly. We can now get in and out of our new motorhome without having to worry about climbing the high step. Thank you very much for a great product, its made our disabilities manageable to carry on holidaying!

Laurie Creechan, Birmingham UK - January 2015

We thought last year might be our last year in our RV, but now my husband has a new zest for life, getting up and about easily with Motorstep. Using it around the home has been a lifesaver and now we are out on our Easter caravan break with it. THANK YOU.

John & Maureen Whitby, Adelaide, Australia- April 2017

Best purchase we ever made!

Frank Noonan, Florida - April 2017

About Motorstep

MOTORSTEP is a family business based at Westcott Venture Park in the village of Westcott in Buckinghamshire, England.

Established in 2013, from our own personal experience we wanted to design and build a mobile motorised lift that would give independence back to those with disabilities, especially in their active lives.

Our Motorstep stand on step lift is specifically designed to help negotiate a step with ease and confidence giving independence to the user and their families.

Customer satisfaction is our highest priority to establish ourselves as a leader in the mobility aid market for many years to come!

We work with distributors all over the United Kingdom who provide a first class service to our many customers. Contact your nearest dealer today for more information and to purchase.
